

DOUG LAWRIE

2012 PGA of Canada Jr Leader

US Kids Top 50 Master Teacher

It could be that you won't find anyone who loves what they do for a living more than me. Life is way too short to let the little stuff get in the way of seeing the big picture! Over the course of my nearly 30 years as a member of the Canadian PGA, I have always enjoyed how the learning of golf continues to bestow on those willing to grow.

This has guided me to seek out challenges in new and exciting endeavours. It is essential to give yourself a canvas in which to paint a clear picture of your career, so you can continually add to its wealth of knowledge. This is the cornerstone that drives my great desire to help others, build strong relationships, and see others succeed at their goals.

This is why I started the Focus Golf Group Academy. Providing amazing, top-level instructional programs while using the latest technology allows us to help you build your road map to success.

I am so honoured and happy to return to Trafalgar G & CC. It has always brought wonderful memories and joy in my career and I am excited to continue bringing top instruction to those players and members.
